150 LHB

The thermal paper manufactured by the company mentioned above was examined by us according to the

"Methoden zur Untersuchung von Papieren, Kartons und Pappen für Lebensmittelverpackungen", Stand 2000, entsprechend der Vorschrift Nr. 80.56 in der Amtlichen Sammlung von Untersuchungsverfahren nach § 64 des Lebensmittel- und Futtermittelgesetzbuchs - LFGB,

("Methods for testing papers and boards for food packaging", state of 2000, corresponding to the method no. 80.56 within the Official Collection of Test Methods according to § 64 of the Foodstuffs and Animal Feed Code - LFGB),

for its composition as well as for the release of substances which might endanger health.

Moreover, the release of heavy metals according to the

DIN EN 71, part 3 "Safety of Toys, Migration of Certain Elements", state of May 2003, was determined.

The thermal paper is in compliance with the rules of the

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union No. L 338/4 of 13.11.2004, article 3,

as well as of the

Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuch (Lebensmittel- und Futtermittelgesetzbuch - LFGB) in der Fassung der Bekanntmachung vom 26. April 2006, zuletzt geändert am 26. Februar 2008, Stand vom 1. März 2008, §§ 30 und 31,

(Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code - LFGB) in the version of the notification of 26 April 2006, last amendment of 26 February 2008, state of 1 March 2008, §§ 30 and 31).

Furthermore the thermal paper is in conformity with the demands of the

DIN EN 71, part 3 "Safety of Toys, Migration of Certain Elements", state of May 2003, concerning the release of heavy metals.

Thus the thermal paper grade 150 LHB according to the sample material submitted is physiologically and toxicologically safe if used according to its intended purpose. It may hence be used safely in printers and scales for the marking of goods. However, it may only stand in direct contact with such kind of foodstuffs which are washed, shelled and/or peeled before consumption according to experience.

This certificate of conformity has a validity of 2 years. It consists of 3 pages.

Staatlich anerkannter Sachverständiger
zur Untersuchung der Gegenproben von
Verpackungsmitteln aus Papier, Pappe,
Kunststoffen, Glas, Weißblech und
sonstigen Metallverpackungen auf ihre
lebensmittelrechtliche Unbedenklichkeit
