www.ricoh-thermal.com

herewith declare:

That the following product as manufactured by RICOH INDUSTRIE FRANCE S.A.S. is done according to/in compliance with the mentioned Regulations/Ordinance/Standards.

Product Description

TOP & BACK coated white thermal phenol-free paper

Product Name/Reference

130 LE+ PF

Applicable EC Regulations/Ordinance/Standards

- (EC)No 1935/2004** on materials and articles intended to come into contact with food.
- (EU)No 10/2011** on plastic materials and articles intended to come into contact with food as amended by the latest amendments.
- SR 817.023.21** Swiss Regulation on Food Contact Materials of 16.12.2016, updated 01.05.2017.
- EN 71-3** 2013+A2 Safety of toys – **Part 3:** Migration of certain elements, issue 08.2017.
- EN 1186** materials and articles in contact with foodstuffs – Plastics, May 2002.
- (EC) No 2023/2006** on good manufacturing practice for materials and articles intended to come into contact with food.

Information about restrictions

There are no existing specific restrictions for the thermal paper mentioned above. Moreover, up to our knowledge, no dual use additives were used in its manufacture.

Conditions of use

The above mentioned thermal paper may only stand in direct contact with such kind of foodstuffs which are washed, shelled and/or peeled before consumption according to our experience.

In all other cases the above mentioned thermal paper can be used together with a functional barrier to achieve a non-migration; the functional barriers tested for this purpose covering all the categories of foodstuffs for which the above mentioned thermal paper is likely to be used (biscuits, bakery, ice cream, confectionery, crisps & snacks, frozen & dry foods, beverage powders, meat & gassing ripening cheese packaging).

This Declaration of Compliance is based on information coming from our suppliers as well as on the results of the tests performed by an external and independent laboratory. To such data an insight can be provided at our head office onsite.
